Decking Installation Kit, Steel Clips and Screws, Covers 100 Sq Ft

- Covers 100 square feet of decking per kit
- Includes 300 STA4.2-30.5 screws for steel
- Steel clips measuring 8.5mm
- Clips are of patented design
- Screws specified for use with steel substrates

OVERVIEW

Decking installation kit supplying steel clips and screws for fastening deck boards, sized to cover 100 square feet of decking per kit. Intended for use by contractors and installers laying composite or timber decking boards requiring hidden fastening hardware.

The kit includes 300 pieces of STA4.2-30.5 screws engineered for use with steel, paired with patented steel clips measuring 8.5mm. The clip design and screw sizing are matched for consistent board spacing and fastening across the coverage area.
