

Underground LED Brick Light, 21W RGB SPI, 24VDC, IP67, 60x20cm

- 21W power draw on a 24VDC supply
- RGB SPI LED technology for individually addressable color control
- IP67 rating for dust and water immersion resistance
- 12mm frosted tempered glass cover with stainless steel body
- Rated LED lifetime of 50,000 hours
- 1-year manufacturer warranty

OVERVIEW

The 1-B24x8-SPI-24V is an underground LED brick light designed for in-ground installation in pathways, plazas, and architectural accent applications. Its stainless steel body and frosted tempered glass cover provide a durable, low-profile fixture that integrates cleanly into hardscape surfaces.

The fixture operates at 21W on a 24VDC supply and uses RGB SPI LED technology, enabling individually addressable color control for dynamic lighting effects. An IP67 rating confirms full dust ingress protection and resistance to temporary water immersion, making it suitable for demanding outdoor environments. Rated LED lifetime is 50,000 hours, and the unit carries a 1-year warranty.

SPECIFICATIONS

OPTICAL

LED Lifetime 50,000 h

ELECTRICAL

Operating Voltage 24 V

Wattage 21 W

MECHANICAL

Product Dimensions 60x20x6 cm

Material Stainless steel body with frosted tempered glass cover

ENVIRONMENTAL

IP Rating IP67

ORDERING

Warranty 1 y

APPLICATIONS

- In-ground pathway lighting
- Plaza and hardscape accent lighting
- Architectural facade uplighting
- Outdoor walkway illumination
