- 5000K daylight color temperature for high-visibility lighting
- Compact 26 × 6 × 6 in bollard profile in black finish
- Weighs 4 lb for straightforward installation and handling
- Rated for 50,000-hour LED lifetime
- Backed by a 1-year manufacturer warranty

OVERVIEW

The 1-G-D7-5K-25-BK is a 7W outdoor LED bollard designed for pathway, walkway, and landscape lighting applications. Its 26 × 6 × 6 in profile and black finish allow it to integrate cleanly into a range of commercial and residential outdoor environments.

Operating at 5000K daylight color temperature, this bollard delivers clear, high-visibility illumination suited for safety and security lighting in exterior spaces. The fixture is constructed to withstand varied weather conditions, supporting reliable long-term performance with minimal maintenance requirements. Rated for a 50,000-hour LED lifetime and backed by a 1-year warranty, it is intended for long-term outdoor installation.
