

10 ft Round Steel Light Pole, 3-Inch Diameter, 11 Gauge, Dark Bronze Finish

OVERVIEW

The R10FT3-11G-D is a 10 ft straight round steel light pole with a 3-inch diameter, constructed from 11-gauge high-strength steel tube conforming to ASTM-A 500 Grade B with a minimum yield strength of 46,000 PSI. It is suited for area lighting applications including retail centers, industrial parks, schools, office buildings, and similar commercial or institutional sites.

The pole features a textured architectural dark bronze powder-coat finish baked for adhesion and durability, with hot-dip galvanized surface treatment. It includes a cast iron reinforced hand hole and cover with ground screw, and a two-piece formed steel base cover. Standard poles are predrilled at two locations (2@180°) for side-mount arm configurations and include a polycarbonate top cover with hole plugs. The pole weighs 72 lbs and carries an EPA rating of 26.2 at 70 mph wind speed. Anchor bolts, base cover, anchor kit, position plate, and accessories are sold separately.
