

Slip Fitter Mount for G Series Area Light, Outdoor Pole Mounting Accessory

- Slip fitter design for standard pole mounting compatibility
- Adjustable positioning for optimal fixture aim and light direction
- Purpose-built to integrate directly with G Series Area Light fixtures
- Rated to support 50,000 hour LED lifetime performance
- Backed by a 1 year warranty

OVERVIEW

The Slip Fitter Mount for G Series Area Light is a dedicated mounting accessory designed to securely attach G Series Area Lights to standard slip fitter poles and mounting surfaces. It is suited for outdoor area lighting installations where a reliable, stable connection between the fixture and support structure is required.

The mount is constructed for durability and includes adjustability to allow proper fixture positioning and optimal light direction. It integrates directly with G Series Area Light fixtures and is designed to resist movement and vibration, supporting consistent long-term lighting performance in outdoor environments.
