

## 15 ft. Square Steel Light Pole, 4x4 in. 14-Gauge Carbon Steel, 2-3/8 in. Top Tenon

### OVERVIEW

The 1-ST-PL-15FT is a 15 ft. square steel light pole designed for commercial and industrial outdoor lighting installations. Built from 14-gauge carbon steel with a 4 in. x 4 in. cross-section, it accepts a 2-3/8 in. top tenon-mount luminaire and includes a 2 in. round electrical access hole. Suitable for parking lots, roadways, and site lighting applications where a durable, fixed pole is required.

The pole is finished with a bronze resin-based paint and is rated for wind resistance up to 200 MPH at the 15 ft. height. An 18 in. metal base plate with 8 in. x 5/8 in. anchor bolt pattern is included for foundation mounting. Estimated service life is 20 to 25 years, and the pole is compatible with LED, solar, and conventional luminaires.

No certifications are confirmed for this product. Note: This item is non-returnable. Proper foundation or metal base is required for installation.

### SPECIFICATIONS

|                             |  |                           |  |
|-----------------------------|--|---------------------------|--|
| <b>Material</b>             | Carbon steel galvanized (ASTM A36)                                 | <b>Weight</b>             | 60 (10 ft) / 75 (14 ft) / 122 (24 ft) lbs  |
