

24 ft. Square Steel Light Pole, 4 in. x 4 in., 2 - 3/8 in. Top Tenon, Bronze

- 24 ft. overall height, 4 in. x 4 in. square cross-section
- Constructed of 14-gauge carbon steel, galvanized
- 2 - 3/8 in. top tenon for luminaire mounting
- 2 in. round electrical access hole for wiring entry
- Rated for wind resistance up to 120 MPH
- Bronze resin-based paint finish

OVERVIEW

The 1-ST-PL-24FT is a 24 ft. square steel light pole intended for commercial and industrial outdoor lighting installations. It is fabricated from 14-gauge carbon steel with a 4 in. x 4 in. cross-section and includes a 2 - 3/8 in. top tenon for standard luminaire mounting. A 2 in. round electrical access hole is provided for wiring entry.

The pole is rated for wind resistance up to 120 MPH, supporting a range of regional wind load requirements. The exterior is finished in bronze resin-based paint over a galvanized carbon steel substrate. This item is a custom order with a 1-week lead time and is non-returnable.

SPECIFICATIONS

MECHANICAL

Product Dimensions	EM: 4 × 4 in. H: 20 FT
