

RM Series Motion Sensor Cover for 60-150W Retrofit Modules

- Rated for compatibility with 60-150W retrofit modules
- Backed by a 1-year manufacturer warranty
- Supports fixtures with 50,000-hour LED lifetime rating
- Compatible with multiple motion sensor models and brands
- Allows access to sensor controls without cover removal

OVERVIEW

The RM Series Motion Sensor Cover is a protective enclosure designed for use with 60-150W retrofit module installations. It provides physical protection for motion sensors while maintaining easy access to sensor controls and adjustment settings, making it suitable for commercial and industrial lighting retrofit applications.

The cover is compatible with a range of motion sensor models and brands, offering installation flexibility across various retrofit configurations. Its design is intended to integrate cleanly into existing fixture aesthetics without obstructing sensor performance.

The accessory is backed by a 1-year warranty and is intended for use with fixtures rated up to 50,000 hours of LED lifetime.
