

Direct Mount Bracket for Wall, Round Pole, and Square Pole Installation

OVERVIEW

The 1-ST-RM-DI is a direct mount bracket designed for use with shoebox-style area luminaires. It supports wall, round pole, and square pole mounting configurations, providing installation flexibility across a range of commercial and industrial site lighting applications.

The bracket is constructed from ADC12 die-cast aluminum, offering structural rigidity suitable for outdoor pole and wall installations. The surface finish is rated IP65, indicating resistance to dust ingress and low-pressure water jets.

SPECIFICATIONS

Material	Die Cast Aluminum	Input voltage	12 V
IP rating	IP65	Dimensions	160
