

## Trunnion Mounting Bracket with Adapter for LED Area Light Fixtures

### OVERVIEW

The 1-ST-RM-NTR is a trunnion (TR) mounting bracket with adapter designed for use with the Lumipro 1-ST-RM series LED area light fixtures. It provides a secure wall or arm-mount attachment option for installations where a trunnion-style connection is required, such as building facades, poles, or structural surfaces in parking lot and roadway lighting applications.

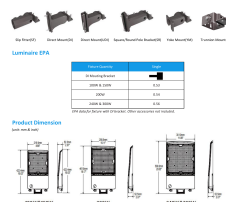

This bracket ships as a sold-separately accessory and is packaged individually. Per published packing data, each unit has a net weight of 10.4 kg and a gross weight of 11.4 kg, with an inner box dimension of 7.28" x 6.29" x 3.14". It is one of six mounting bracket types compatible with the 1-ST-RM fixture family.

No independent certifications are confirmed for this bracket accessory in the available source data. Contractors should verify compatibility with the specific 1-ST-RM fixture wattage and mounting configuration prior to installation.
