

Slip Fitter Mounting Bracket for Round Pole, 2.5 in. Inner Diameter

OVERVIEW

The 1-ST-RM-SF is a slip fitter mounting bracket designed for installation on round poles. It is intended for use in commercial and industrial outdoor lighting applications where a secure, pole-top or tenon-style mount is required.

The bracket is constructed from die-cast aluminum (ADC12 alloy), providing structural durability suitable for exterior environments. The unit carries an IP65 rating, indicating protection against dust ingress and low-pressure water jets.

SPECIFICATIONS

Material	Die Cast Aluminum	Input voltage	12 V
IP rating	IP65	Dimensions	76
