

Type 5 Replacement Lens for RM Series Street Lights, 50,000 h LED Rated

- Type 5 distribution pattern for wide-area street coverage
- Compatible replacement optic for RM Series street lights
- Rated for 50,000-hour LED lifetime compatibility
- 1-year manufacturer warranty
- Reduces glare and eyestrain for drivers and pedestrians

OVERVIEW

The Type 5 Replacement Lens is a precision optic designed for use with the RM Series street lights. It provides uniform, wide-area light distribution suited for street and highway applications where consistent coverage and visibility are required.

The lens delivers controlled Type 5 distribution, reducing glare and eyestrain for drivers and pedestrians. Its construction is intended for durability in outdoor roadway environments, and it supports tailored lighting configurations within the RM Series platform.

Backed by a 1-year warranty and rated for use with LEDs having a 50,000-hour lifetime.
