

Trunnion Mounting Bracket for RM Series LED Fixtures, 100W–300W

OVERVIEW

The LUMIPRO Trunnion Mounting Bracket (1-ST-RM-TR) is designed for use with RM Series LED fixtures ranging from 100W to 300W. It provides a secure, adjustable mounting solution that allows for flexible positioning of lighting angles to meet site-specific aiming requirements.

Constructed for durability in harsh weather conditions, the bracket features a black finish suitable for a range of installation environments. Dimensional references from the datasheet indicate a compact profile with a primary span of approximately 7.13" (181mm) and mounting geometry sized to accommodate the RM Series fixture footprint.

SPECIFICATIONS

Power	100 W
