

Twist Lock Photocell Sensor for Outdoor Lighting Control

- Twist lock mounting interface for compatible fixtures
- Enables dusk-to-dawn automatic lighting control
- Rated for 50,000 hour LED lifetime
- Backed by a 1 year warranty

OVERVIEW

The 1-ST-Z-Photocell is a twist lock photocell sensor for outdoor lighting control applications. It mounts via a standard twist lock interface, making it compatible with fixtures that include a twist lock receptacle for dusk-to-dawn or daylight-harvesting control.

The sensor is rated for a 50,000 hour LED lifetime and is backed by a 1 year warranty.
