- Waterproof construction suited for exposed outdoor environments
- 5000K daylight color temperature output
- Dimmable operation for adjustable illumination levels
- LED lifetime rated at 50,000 hours
- Limited 1-year warranty under Final Sale terms

OVERVIEW

The 1-W-S3×2-5K-BK-D is an outdoor LED wall light built for exterior mounting applications such as building facades, entryways, and perimeter lighting. The fixture is housed in a compact 100×100×100mm black enclosure with waterproof construction suited for exposed outdoor environments.

The unit produces a 5000K daylight color output and supports dimming for adjustable illumination levels. It is rated for outdoor use with waterproof protection and an LED lifetime of 50,000 hours.

This item is offered as a Final Sale product with a limited 1-year warranty in place of standard coverage.
