

Full-Cutoff LED Wall Pack 80W 5000K 10400lm DIP Switch 0-10V Dimming

OVERVIEW

The FC Series Full-Cutoff LED Wall Pack is a wet-location-rated outdoor luminaire designed for wall-mount applications on commercial, industrial, retail, and hospitality building facades. The full-cutoff optical design with Type II, III, or IV distribution optics controls light placement and minimizes spill, making it suitable for perimeter and facade lighting where precise distribution is required.

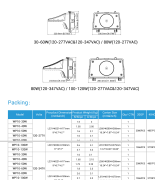

At 80W, the fixture delivers 10,400 lumens at 130 lm/W efficacy with a 5000K color temperature and a CRI greater than 70. The die-cast aluminum housing with UV-resistant polycarbonate refractor lens carries an IP65 rating for dust and water ingress protection, with an operating range of -40°F to 158°F. The integrated DIP switch allows on-site wattage adjustment, and 0-10V dimming is supported. Rated L70 at 50,000 hours. Input voltage is 120-277VAC.

The fixture is DLC Premium Listed and cETL/ETL certified. Surge protection is rated at 2KV line-to-neutral and 4KV line/neutral-to-ground. Optional accessories include photocell and microwave motion sensor configurations. A 5-year manufacturer warranty is included.

SPECIFICATIONS

Power	80 W	Dimensions	11.0 x 9.2 x 7.2 in
Luminous flux	10400 lm	Weight	2.1 kg
CCT	5000 K	Rated life	50000 hr
CRI	70	Warranty	5 yr
IP rating	IP65	Operating temp	-40 to +45 °C
Input voltage	120-277VAC V
