OVERVIEW

The WW2 LED Wall Washer is a 24VDC, 24W linear fixture designed for indoor and outdoor architectural lighting applications. At 40 inches in length, it is suited for grazing building facades, highlighting structural features, and creating controlled color effects in hospitality and entertainment environments. The fixture produces blue light output using SMD4040 LED technology at a density of 24 LEDs per meter.

The fixture carries an IP68 rating, indicating resistance to dust ingress and suitability for continuous water immersion, appropriate for demanding exterior or wet-location installations. It operates at 24V DC, draws 24W, and is rated for a 50,000-hour LED lifetime.

The product is backed by a 1-year warranty.
