

## LED Wall Washer 24VDC 24W 1800K IP68 SMD4040 40-Inch Fixture

### OVERVIEW

The WW2 LED Wall Washer (SKU: 1-WW2-24V-Y-40) is a 24VDC, 24W linear fixture designed for architectural wall-washing applications in both commercial and residential installations. Available in a 40-inch (1000 mm) length, it delivers 1800K amber-yellow illumination suited for accent lighting on building facades, landscape features, and decorative architectural surfaces.

The fixture operates on 24VDC at 24W and utilizes a dual-chip LED configuration. The extruded housing measures 40 x 26 x 1000 mm and is engineered for continuous outdoor exposure. Input voltage is low-voltage DC, reducing shock risk in wet-area installations. The 1800K color temperature produces a warm amber output appropriate for decorative and mood-oriented lighting schemes.

The WW2 carries an IP68 ingress protection rating, confirming suitability for permanent outdoor installation and exposure to water immersion. No additional certifications are confirmed in available source documentation. Buyers should verify compliance requirements with their local jurisdiction prior to specification. Warranty terms are not specified in current source data and should be confirmed with Poli LED & Signs directly.
