

WW2 Series 2-Pin End Connector, Male & Female, 6 In. Length

- 2-pin male and female connector design for WW2 Series compatibility
- 6-inch lead length for routing flexibility without cable clutter
- Compact, durable construction suited for professional installation
- 1-year manufacturer warranty
- Rated for use with components carrying a 50,000-hour LED lifetime

OVERVIEW

The 1-WW2-CNT is a 2-pin end connector designed specifically for the WW2 Series LED strip lighting system. It provides a secure male-to-female connection for linking WW2 Series runs, with a 6-inch lead length that allows for routing flexibility without excess cable bulk.

The connector is built for reliable, low-interference signal and power transfer between compatible 2-pin components. Its compact construction is suited for professional installation environments where consistent connectivity and tidy wiring are required.

Backed by a 1-year warranty for added assurance in commercial installations.

SPECIFICATIONS

OPTICAL

LED Lifetime 50,000 h

ELECTRICAL

Input Connection Type 2-pin male/female

Wire Length 6 in

ORDERING

Warranty 1 y

APPLICATIONS

- WW2 Series wall washer runs
- LED strip lighting extensions
- Commercial architectural lighting installations
- Outdoor fixture wiring connections
