

Adjustable Step-and-Repeat Banner Display Stand, 53"–96" W x 40"–96" H, Dual Base

OVERVIEW

The 2-BD96 Adjustable Banner Display Stand is a dual-base step-and-repeat display system designed for trade shows, conferences, corporate events, and promotional installations. The adjustable frame accommodates banner widths from 53" to 96" and heights from 40" to 96", providing flexibility across a range of graphic sizes and layout configurations.

The frame is constructed from 1.5mm aluminum with black finish and plastic hardware components. The system ships as a complete set with two base stands for freestanding stability. Net weight per set is 6.01 kg. The aluminum build is suited for repeated setup and breakdown in high-traffic event environments.

No certifications, compliance listings, or warranty terms are confirmed in the available source documentation. Contractors and specifiers should contact Poli LED & Signs directly for compliance documentation relevant to their application or jurisdiction.
