

Flying Banner Pole, 11 ft Height, Cross Base, Indoor/Outdoor Use

- Stands 11 feet tall for maximum visibility at events
- Cross base design provides stable freestanding support
- Portable construction allows quick setup and teardown
- Rated for both indoor and outdoor deployment
- Backed by a 1-year warranty

OVERVIEW

The Flying Banner Pole is an 11-foot promotional display system designed for trade shows, exhibitions, storefronts, and outdoor events. The cross base provides stable support, and the overall system is engineered for portability and quick setup.

Constructed from durable materials rated for both indoor and outdoor use, the system is built to withstand varied weather conditions while maintaining structural integrity across deployments.

The display is backed by a 1-year warranty.
