

## Square Steel Pole Base with Pin and Handle Cut-Out, 40x40cm

### OVERVIEW

---

The 2-FP-B-40x40S is a square steel pole base designed for use with flagpole installations. Measuring 40x40cm, it features a center pin mount without a bearing and includes a handle cut-out for ease of handling and installation. This base is intended for commercial and light industrial flagpole applications where a fixed, non-rotating mount is required.

Constructed from steel, the base provides a stable ground-level foundation for compatible flagpole shafts. The handle cut-out facilitates positioning during installation. At 13.2 lbs, the unit offers structural mass appropriate for anchoring pole assemblies. No bearing is included, making this configuration suited for static pole installations that do not require shaft rotation.

No certifications, compliance listings, or warranty terms are confirmed in the available source data for this product. Contractors and specifiers should verify applicable local codes and load requirements prior to installation. Contact Poli LED & Signs for additional technical documentation or project-specific guidance.
