

Steel Base for Automotive Feather Flag Sign Applications, 1 - Year Warranty

- Constructed from steel for structural support and stability
- Offers corrosion resistance for outdoor automotive use
- Compatible with various automobile models and configurations
- Backed by a 1 - year warranty

OVERVIEW

The 2-FP-B-Car is a steel base designed for feather flag banner displays used in automotive sign applications, providing structural support and stability for signage mounted on or near vehicles. It is intended for use by contractors and installers requiring a reliable mounting foundation in automotive environments.

Constructed from steel, this base is characterized by corrosion resistance and compatibility with various automobile models and configurations. The design integrates with multiple mounting setups, supporting stable sign placement across different vehicle types.

The base is backed by a 1 - year warranty.
