

Top - Mounted Mini Steel Base with Bearing, 122 x 122 mm Square Plate

- Square mounting plate measures 122 × 122 mm
- Top-mounted design for simplified installation and adjustment
- Built-in bearing enables smooth rotational movement
- Constructed from steel for durable mounting support
- Backed by a 1-year warranty

OVERVIEW

The 2-FP-B-Top is a top-mounted mini steel base designed for pole and fixture mounting applications. Its square mounting plate measures 122 × 122 mm, providing a stable footprint for attachment in commercial and industrial installations. The top-mounted configuration simplifies installation and allows for straightforward positioning adjustments in the field.

The base incorporates a built-in bearing that enables smooth rotational movement, supporting applications where angular adjustment or rotation is required. Constructed from steel, the unit is built for durability in demanding mounting environments and carries a 1-year warranty.
