

Aluminum Flag Pole 14 ft Without Base for Commercial Display

OVERVIEW

The 2-FP14 is a 14 ft (4.6 m) teardrop feather flagpole designed for commercial advertising and promotional display applications. Constructed from aluminum, it is suited for use at retail locations, trade events, and outdoor venues where portable, high-visibility signage is required. A carrying tube is included for transport and storage. The pole does not include a base, allowing the installer to select a mounting solution appropriate for the application.

The teardrop feather profile provides a distinct silhouette that maintains flag orientation and visibility across varying wind conditions. The aluminum construction is intended to resist corrosion and hold up under general outdoor weather exposure. No dimensional or weight specifications are confirmed in the available source data for this SKU.

No certifications, compliance listings, or warranty terms are confirmed in the available source data for this product. Contractors and specifiers should contact Poli LED & Signs directly to obtain current compliance documentation and warranty terms prior to procurement.
