

Corruplast Step Stake, 30 in. x 10 in., 3.75mm Galvanized Iron Wire, Silver

- Made from galvanized iron wire for rust and corrosion resistance
- Wire thickness of 3.75mm provides structural rigidity in ground use
- Measures 30 in. (H) x 10 in. (W) for standard corrugated plastic signs
- Silver finish presents a neutral, professional appearance
- Backed by a 1 -year warranty
- Designed for easy installation, disassembly, and transport

OVERVIEW

The Corruplast Step Stake is a wire sign stake designed to hold corrugated plastic signs and banners securely in the ground. It is intended for temporary outdoor signage applications such as real estate, event, and field marketing installations where quick deployment and retrieval are required.

Constructed from 3.75mm galvanized iron wire, the stake provides structural rigidity and resistance to rust and corrosion, making it suitable for extended outdoor exposure. The silver finish presents a clean, neutral appearance that does not detract from the displayed signage. The stake is designed for straightforward installation, disassembly, and transport, supporting repeated use across multiple campaign locations.

The product carries a 1 -year warranty.
