- Double-sided T-type frame for two-directional graphic display
- Aluminum construction for a lightweight, durable frame
- Adjustable frame accommodates different spatial configurations
- Packaged dimensions of 40 × 4 × 4 in for portability
- Unit weight of 4 lb for easy transport between venues
- Backed by a 1-year warranty

OVERVIEW

The 2-T32D-E-AL is a T-type double-sided banner display constructed from aluminum, designed for trade shows, exhibitions, and promotional events. Measuring 32 in x 79 in, it presents graphics or messaging from both sides, making it suitable for high-traffic environments where visibility from multiple directions is required.

The frame is adjustable to accommodate different spatial configurations and promotional requirements. Setup and dismantling are straightforward, supporting efficient deployment across multiple venues or event formats. Packaged dimensions measure 40 × 4 × 4 in and the unit weighs 4 lb, making it portable between sites.

The display carries a 1-year warranty.
