

Mini Roll-Up Desktop Display, Single-Sided, A3 Silver Aluminum Base

OVERVIEW

The 3-RA11 Mini Roll-Up Desktop Display is a compact, single-sided banner stand designed for tabletop use in trade shows, reception areas, retail counters, and professional office environments. It features a silver aluminum base measuring 8 cm x 33 cm and accommodates a standard A3 graphic panel (29.7 cm x 42.0 cm), with a top rail of 1.7 cm x 30.5 cm for secure graphic retention. A 3M adhesive tape is included for graphic mounting, and each unit ships in its own inner box for protection during transport and storage.

The aluminum base construction provides a stable footprint while keeping the overall unit lightweight and portable. The single-sided format delivers a clean, focused display surface suited for notices, promotional materials, wayfinding, and informational signage. The roll-up mechanism allows for straightforward setup and breakdown without tools, making it practical for recurring use across multiple locations or events.

No certifications have been confirmed for this product in the available source documentation. Contractors and procurement teams should verify compliance requirements with their specific application or jurisdiction prior to specification. Contact Poli LED & Signs for current warranty terms and volume pricing.
