

Aluminum Retractable Banner Stand, 33.5" x 78.7" Graphic, Single-Sided

OVERVIEW

The 3-RA33 Aluminum Retractable Banner Stand is a single-sided display unit designed for trade shows, presentations, corporate events, and retail environments. It accommodates a graphic panel measuring 33.5" wide by 78.7" tall (85 cm x 200 cm), providing a substantial print area for signage and promotional messaging.

The stand features a full aluminum base and snap top rail (Profile No. 5) with a plastic holder, a 3-piece pole assembly, and a 3M adhesive tape mounting system. The retractable mechanism allows for rapid setup and breakdown without tools. Net weight is 2.15 kg per unit. The base is finished in silver and ships in a single black Oxford carrying bag for transport and storage.

No third-party certifications are confirmed for this product. Buyers should verify compliance requirements with their jurisdiction prior to specifying for regulated applications. Warranty terms are not stated in the available source documentation; contact Poli LED & Signs for current warranty coverage.
