

Double-Sided Retractable Roll-Up Banner Display, Full Aluminum, 33.5" x 78.7"

OVERVIEW

The 3-RA33D is a double-sided retractable roll-up banner display constructed from full aluminum, designed for trade shows, retail environments, corporate events, and other professional settings where portable signage is required. The unit measures 33.5" x 78.7" per display face and retracts into a compact aluminum base for straightforward transport and storage.

The display features a visible aluminum roller mechanism, adjustable support poles, and a heavy base for stable freestanding use. The double-sided configuration maximizes graphic exposure from multiple viewing angles. At 4 kg net weight per set, the unit is suited for frequent setup and breakdown cycles. Each set ships in a double bag; master cartons contain 4 sets at 18 kg gross.

No certifications, compliance listings, or warranty terms are confirmed in the available source documentation. Contractors and procurement teams should contact Poli LED & Signs directly for any project-specific compliance requirements or volume pricing inquiries.
