

Retractable Aluminum Roll-Up Display Stand, 33.5" Wide, Adjustable Pole 64"–79"

OVERVIEW

The 3-RA33HL is a full-aluminum retractable roll-up display stand designed for trade shows, retail environments, corporate events, and other professional presentation settings. At 33.5 inches wide and reaching up to 79 inches in height via an adjustable pole system, it provides a substantial single-sided display surface suited for banners, promotional graphics, and informational signage.

The stand features an aluminum roller mechanism, aluminum poles, and a heavy base, balancing structural rigidity with portability. Each unit ships with a double carry bag and has a net weight of 4.5 kg per set, making it practical for repeated transport and setup. The all-aluminum construction resists corrosion and withstands the demands of frequent use in varied indoor environments.

No certifications or compliance listings are confirmed in the available source documentation for this product. Warranty terms are not specified in the provided data. Contractors and event coordinators should consult Poli LED & Signs directly for compliance requirements relevant to their specific application or jurisdiction.
