

Aluminum Mounting Beam, 4 In. x 10 Ft., Dual-Side Channel Profile

- Aluminum construction resists corrosion and rust for indoor or outdoor use
- Measures 4 in. wide by 10 ft. (3.05 m) long, 10 cm high, 1.6 cm wide
- Dual-side channel profile allows flexible mounting configurations
- Backed by a 1-year manufacturer warranty

OVERVIEW

The 4-H10-10 is an aluminum structural mounting beam designed for use in commercial, industrial, and residential installations. Measuring 4 inches in width and 10 feet (3.05 m) in length, with a 10 cm height and 1.6 cm width profile, it is suited for applications requiring a reliable, lightweight structural element that is easy to handle and transport.

Constructed from aluminum, the beam resists corrosion and rust, making it appropriate for both indoor and outdoor environments. The profile includes dual-side channels, providing installation flexibility across a range of mounting configurations. The design is intended to support heavy loads while maintaining structural integrity over extended service.

The beam carries a 1-year warranty.

SPECIFICATIONS

OPTICAL

LED Lifetime 50,000 h

MECHANICAL

Product Dimensions 4 in x 10 ft (3.05 m x 10 cm x 1.6 cm)

Length 3.05 m
10.0 ft

Material Aluminum

Mounting Channel mount

ORDERING

Warranty 1 y

APPLICATIONS

- Tradeshow exhibit booths
- Signage frameworks
- Structural mounting systems
- Commercial display construction
- Industrial fabrication
