

Aluminum Octagonal Light Pole, 8 ft (2.44 m), 4 cm Diameter

- 8-foot (2.44 m) length for standalone outdoor pole installations
- 4 cm octagonal shaft diameter for stable fixture mounting
- Constructed from premium-grade aluminum for corrosion resistance
- 1-year manufacturer warranty
- Rated LED lifetime of 50,000 hours for mounted lighting components

OVERVIEW

The 4-PR4-8 is an 8-foot (2.44 m) octagonal aluminum pole designed for mounting outdoor lighting fixtures, flags, or signage in commercial and residential applications. Its octagonal profile provides structural rigidity while contributing a clean, contemporary appearance suited to a range of outdoor environments.

Constructed from premium-grade aluminum, the pole offers a combination of corrosion resistance, long-term durability, and a lightweight form factor relative to steel alternatives. The 4 cm shaft diameter is consistent across the octagonal cross-section, supporting stable fixture mounting.

The pole carries a 1-year warranty, and associated LED components are rated for 50,000 hours of service life.
