

Square Plastic Cover for 4-PL2.8 LED Panel Light

- Square shape matches the 4-PL2.8 LED panel light profile
- Rated for use with fixtures carrying a 50,000 h LED lifetime
- Backed by a 1-year warranty
- Functions as a protective and finishing accessory component

OVERVIEW

The 4-PS2.8-CV is a square plastic cover designed as a replacement or accessory component for the 4-PL2.8 LED panel light. It is intended for use in installations where the panel requires a protective or finishing cover, maintaining the integrity and appearance of the fixture.

The cover is matched to the service life of the 4-PL2.8 panel and is backed by a manufacturer warranty, supporting long-term use alongside the fixture it accompanies.
