

Aluminum Square Pole 4-Sided Ditch Mount, 3.66 m Length x 6.5 cm Width

- Overall length of 3.66 m for pole and post installations
- Square cross-section width of 6.5 cm
- Four-sided ditch design for straightforward mounting and stability
- Lightweight aluminum construction resists corrosion
- Suitable for indoor and outdoor use
- Backed by a 1-year warranty

OVERVIEW

The 4-PS6.5-12 is an aluminum square pole measuring 3.66 m in length with a 6.5 cm width, designed for use in signage, flag mounting, and outdoor lighting fixture installations. Its four-sided ditch construction supports straightforward mounting and provides structural stability across a range of commercial and site applications.

Constructed from lightweight aluminum, the pole offers corrosion resistance suitable for both indoor and outdoor environments. The clean, square profile integrates with a variety of architectural and site settings without visual interference.

The pole is backed by a 1-year warranty.
