

Aluminum Square Pole, 4-Sided Ditch, 10 ft x 8 cm, Aluminum Construction

- 4-sided ditch profile for a clean, professional appearance
- 10 ft (3.05 m) overall length
- 8 cm width square cross-section
- Aluminum construction resists rust and corrosion
- Recyclable aluminum material supports end-of-life reuse
- 1-year warranty

OVERVIEW

The 4-PS8-10 is a 4-sided aluminum square pole measuring 10 ft in length and 8 cm in width, designed for use in signage, lighting, and general support structure applications. Its square profile provides a clean, professional appearance suited to commercial and industrial installations.

Constructed from aluminum, the pole is lightweight relative to comparable steel structures while maintaining structural rigidity. The material is inherently resistant to rust and corrosion, reducing long-term maintenance requirements. The aluminum composition also supports recyclability at end of service life.

The pole carries a 1-year warranty.

SPECIFICATIONS

OPTICAL

LED Lifetime 50,000 h
