

Aluminum Inner Extension for 4-Inch and 5-Inch FE Aluminum LED Profiles

- Aluminum construction for structural durability and strength
- Sized for compatibility with 4-inch and 5-inch FE aluminum profiles
- Enables extension or adaptation of existing profile assemblies
- Precision-engineered fit reduces need for field modifications
- Backed by a 1-year warranty
- Compatible with profile systems rated for 50,000-hour LED lifetime

OVERVIEW

The Aluminum Inner Extension (SKU: 4-Z-Ext1) is an accessory component designed for use with 4-inch and 5-inch FE aluminum LED profiles. It integrates with existing profile systems to extend or adapt assemblies, supporting greater layout flexibility across a range of commercial and architectural lighting installations. Constructed from aluminum, the extension is built for durability and structural integrity within profile-based systems. Its dimensions are engineered for a precise fit with compatible profiles, reducing the need for field modifications or supplemental hardware during installation. The extension is backed by a 1-year warranty and is compatible with profile systems rated for an LED lifetime of up to 50,000 hours.
