

Plastic Corner Accessory for 5 - ALF4 Aluminum Profile, Black Finish, Discontinued

- Constructed from black plastic for a sleek, professional appearance
- Compatible specifically with the 5 -ALF4 aluminum profile
- Resists weathering, corrosion, UV exposure, impact, and wear
- Backed by a 1 -year warranty
- Rated for use with LED systems at 50,000 hour lifetime

OVERVIEW

The 5 -ALF4-CN is a plastic corner accessory designed specifically for use with the 5 -ALF4 aluminum LED channel profile. It is intended for applications such as framing, shelving, and enclosure construction, providing secure and precise connections between aluminum profile sections.

Constructed from black plastic, this corner piece offers resistance to weathering, corrosion, UV exposure, impact, and general wear. Its design allows for straightforward installation and maintains a clean, professional appearance at profile joints.

This component carries a 1-year warranty and is rated for use with LED systems having a rated lifetime of 50,000 hours.
