Metal Corner Bracket for AL D-XM286 LED Channel, Premium-Grade Metal

- Constructed from premium-grade metal for wear and impact resistance
- Dimensionally matched to the AL/D-XM286 profile for direct fit
- Provides structural support at LED channel corner transitions
- Backed by a 1-year manufacturer warranty
- Designed for use in commercial and architectural signage installations

OVERVIEW

The Metal Corner for AL/D-XM286 is a purpose-built mounting accessory designed to provide structural support and a secure fit for the AL/D-XM286 LED channel system. It is intended for use in commercial and architectural lighting installations where channel integrity and clean corner transitions are required. Constructed from premium-grade metal, this corner bracket offers resistance to wear and mechanical impact, making it suitable for demanding installation environments. Its design is dimensionally matched to the AL/D-XM286 profile for straightforward installation without modification. It is backed by a 1-year warranty.
