

Aluminum Sign Frame, 3.05 m Length, 38 mm Profile Width

- Aluminum construction for weather resistance in outdoor signage
- 3.05 m overall length per unit
- 38 mm profile width for a low-profile border
- 1-year manufacturer warranty
- Rated for 50,000-hour service life

OVERVIEW

The 5-F38-10 is an aluminum sign frame designed for commercial and industrial signage applications. With a profile width of 38 mm and a length of 3.05 meters, it provides a clean, low-profile border suited to both indoor and outdoor installations.

Constructed from aluminum, the frame is built to withstand variable weather conditions, making it appropriate for exterior signage environments. Its design prioritizes straightforward installation and disassembly, reducing labor time on the job site.

The frame carries a 1-year warranty and is rated for a 50,000-hour service life.
