

Aluminum SEG Extrusion Frame, 10 ft Length, 58mm Depth, Single Sided

- Extruded aluminum construction for structural rigidity and durability
- 10 ft overall length with 58mm depth and 40mm back edge
- Single-sided profile designed for one silicone edge fabric graphic
- Backed by a 1-year manufacturer warranty
- Rated for a 50,000-hour LED lifetime

OVERVIEW

The 5-F58-10 is a 10-foot aluminum frame engineered for silicone edge graphic (SEG) fabric displays. Its extruded aluminum construction provides structural rigidity while accommodating straightforward fabric installation and replacement. Suitable for trade show exhibits, retail environments, corporate interiors, and event installations where consistent, professional visual presentation is required. Backed by a 1-year warranty and rated for a 50,000-hour LED lifetime.
