

Single-Sided Aluminum Fabric Frame, 6 cm Profile, 10 ft Length

- 6 cm profile depth for structural rigidity
- 10 ft overall frame length
- Premium-grade aluminum construction
- Single-sided design for easy fabric installation and changeouts
- 50,000-hour LED lifetime rating
- 1-year warranty

OVERVIEW

The 5-F60-10 is a single-sided aluminum fabric frame with a 6 cm profile depth and 10 ft length, designed for professional fabric graphic applications in commercial and architectural environments. The extruded aluminum construction provides structural rigidity while accommodating straightforward fabric installation and changeouts.

The frame is fabricated from premium-grade aluminum, offering durability and resistance suited to long-term display use in professional or specification-grade installations. The single-sided configuration simplifies both initial setup and subsequent fabric updates.

The frame carries a 1-year warranty and an LED lifetime rating of 50,000 hours.
