

Single-Sided Aluminum SEG Frame for Fabric Graphics, 6 cm Profile, 7 ft 8 in

- Single-sided aluminum frame for fabric graphic displays
- 6 cm profile depth for a slim, low-profile mounting system
- Overall length of 7 ft 8 in for large-format fabric installations
- Constructed from aluminum for a lightweight, rigid support structure
- Backed by a 1-year manufacturer warranty
- Includes installation hardware and instructions for simplified setup

OVERVIEW

The 5-F60-78 is a single-sided aluminum frame engineered to support fabric graphics installations with a 6 cm profile depth. Measuring 7 ft 8 in in length, it is suited for both commercial and residential environments where a clean, professional presentation of fabric displays is required.

Constructed from aluminum, the frame provides a lightweight yet rigid mounting platform that simplifies handling and installation. The single-sided configuration secures fabric consistently across its span, delivering a polished finished appearance. Installation hardware and instructions are included.

The frame carries a 1-year warranty.
