

Aluminum Frame for Signs, 3.05 m x 65 mm Profile

- Aluminum construction resists corrosion for long-term outdoor use
- 3.05 m overall length for large-format signage runs
- 65 mm wide profile for a secure, consistent sign fit
- Lightweight aluminum build simplifies handling and transport
- Rated for indoor and outdoor installation environments
- Backed by a 1-year warranty and 50,000-hour service life

OVERVIEW

The 5-F65-10 is an aluminum extrusion frame designed for sign mounting and display applications. At 3.05 meters in length with a 65 mm wide profile, it is suited for commercial and institutional signage installations where a consistent, professional finish is required.

Constructed from aluminum, the frame offers corrosion resistance and a lightweight build that simplifies handling, installation, and transport. It is rated for both indoor and outdoor use, providing durability across varying weather conditions.

The frame carries a 1-year warranty and is rated for a 50,000-hour service life.

SPECIFICATIONS
