- Backed by a 1 -year warranty

OVERVIEW

The 5 - F90D - 10 is a double - sided aluminum frame designed for silicone edge fabric (SEG) graphics, suitable for use in retail environments, trade shows, offices, and exhibition spaces. The extruded aluminum construction provides a lightweight yet durable profile that accommodates fabric graphics secured by a silicone beading edge.

The frame's slim profile delivers a clean, finished appearance and is engineered for straightforward installation and quick graphic changes, minimizing downtime during display updates or content refreshes. Rated for an LED lifetime of 50,000 hours and backed by a 1 -year warranty.
