

Steel Base for Aluminum Fabric Frames, 9 x 40 cm

- Constructed from steel for durable structural support
- Sized 9 × 40 cm to fit compatible aluminum fabric frame profiles
- Low-profile design suited to retail and exhibit environments
- Backed by a 1-year warranty

OVERVIEW

The 5-FZ-B9×40 is a steel base designed specifically for use with aluminum fabric frame displays. Its primary function is to provide ground-level support and stability for fabric frame systems in commercial and professional installation environments.

Constructed from steel, the base is sized at 9 × 40 cm to suit compatible aluminum fabric frame profiles. The design prioritizes structural support while maintaining a low-profile appearance suited to retail, exhibit, and professional display applications.

The base carries a 1-year warranty.

SPECIFICATIONS
