

Steel Corner Bracket for 5-F20-10ft and 5-F17S Channel Letter Frames

- Steel construction resists corrosion and impact
- Compatible with 5-F20-10ft and 5-F17S channel letter frame systems
- Provides structural support at frame corner joints
- Suited for indoor and outdoor signage installations
- Backed by a 1-year warranty
- Rated for 50,000 hour LED lifetime compatibility

OVERVIEW

The 5-FZ-CN1 is a steel corner bracket designed for use with 5-F20-10ft and 5-F17S channel letter frame systems. It provides structural support and stability at frame joints, increasing the load-bearing capability of assembled letter frames for commercial, industrial, and residential signage installations.

Constructed from steel with corrosion and impact resistance, these corners are suited for both indoor and outdoor environments. Standardized fittings and precise dimensions allow for straightforward installation with compatible frame components.

Backed by a 1-year warranty for added assurance on installed signage projects.
