

Metal Corner Accessory for LED Strip Channel Profile 5-H819

- Metal construction for durability at corner joints
- Precise fit engineered specifically for the 5-H819 channel profile
- Reinforces structural integrity at profile corner connections
- Backed by a 1-year manufacturer warranty
- Rated to support LED systems with a 50,000 hour service life

OVERVIEW

The 5-H819-CN is a metal corner accessory designed specifically for use with the 5-H819 LED strip channel profile. It provides structural reinforcement at corner joints, making it suitable for residential, commercial, and industrial installations where a clean, finished appearance is required.

Constructed from metal materials, this corner accessory is built to resist wear and maintain structural integrity over the service life of the channel installation. Its precise fit ensures compatibility with the 5-H819 profile without modification.

Backed by a 1-year warranty and rated for use with LED systems specified at a 50,000 hour service life.
