Warranty

- Made of sturdy metal for structural strength
- Designed specifically for the 5-H828-2 (D-86) system
- Reinforces corner joints for sign assembly stability
- Sleek design maintains a clean finished appearance
- Backed by a 1-year warranty

OVERVIEW

The 5-H828-CN is a metal corner piece designed specifically for use with the 5-H828-2 (D-86) channel letter sign system. It serves as a structural accessory, providing corner reinforcement and stability at the joints of the sign assembly.

Constructed from sturdy metal, this component is built to deliver reliable strength and durability in a professional-grade application. Its design integrates with the D-86 system to maintain structural integrity while contributing to a clean finished appearance.

The component is backed by a 1-year warranty.
