

Opal Frosted Cover for LED Linear Fixtures, Glass Diffuser, 50,000 h Rated

- Constructed from opal frosted glass for diffused, glare-reduced light
- Compatible with various LED linear lighting fixtures
- Rated for use with LED sources offering 50,000-hour lifetime
- Backed by a 1-year warranty
- Clean, professional appearance suited to interior décor

OVERVIEW

The Opal Frosted Cover is a diffusion cover designed for use with LED linear fixtures. Constructed from opal frosted glass, it is intended for interior lighting applications where light quality and fixture appearance are priorities.

The frosted glass material reduces glare and softens light output, minimizing harsh shadows and providing uniform, comfortable illumination. The cover presents a clean, professional profile suitable for a range of commercial interior environments.

The cover is backed by a 1-year warranty and pairs with LED sources rated for 50,000 hours of operation.
